COK ASHRAE Outreach

President's Message

By: John Semtner

Our local ASHRAE chapter and its members have made a lot of history in Central Oklahoma and I am pleased that we accomplished that again last year with President Joe Sanders bringing home the golden gavel for the first time since 1993. I'm looking forward to keeping up the momentum Joe sustained last year.

It is my goal in 2015/2016 to continue the great work done by Joe, but also the great work done by the presidents before him like Alan Loeffler, Dusty Stoabs, Tino Mendez, and Bryan Garcia. They are all still heavily involved in making our chapter successful. I grew up around one of the "giants" of our chapter and want to dedicate my presidential year to him, Bob Vermillion. He was the kind of member who tirelessly gave of himself and I hope to follow in those footsteps. Any history we may make in the process this year, will be icing on the cake. The first priorities on my list, membership growth and membership participation.

Our chairmen are already working to strengthen ties with two historic institutions in our chapter; OSU and OG&E. We are looking forward to the quickly approaching Career Fair Prep event that Madison Schultz is putting together at OSU. OG&E has agreed to speak to us at our December meeting and have indicated desire to get reengaged with ASHRAE. Daniel Brazeale is planning a Membership luncheon at OG&E to reach out to their employees. Michael Wilson, Brian Sauer, & Jason Keyes are working on a special ASHRAE meeting that will be held in Stillwater next spring. These two institutions have played a significant role in our chapter's history and we look forward to strengthening that relationship.

Membership involvement is a key factor when it comes to keeping our membership engaged and the line of chairmen strong. From making a small but consistent annual donation to Research Promotion to signing up to fill committees; your participation is important to our chapter's future. We have chairmen and committees working on everything from sustainability to government affairs. Come spend a day volunteering with us outside of a meeting, you'll help strengthen the organization while building valuable relationships with others in our business.

Looking forward to a history filled year and seeing you all at the golf tournament!

John

ASHRAE Central Oklahoma Chapter President

John Semtner
2015-2016 President

Please join us for a wonderful round of golf and fun. We will be playing this year's tournament at **Kickingbird Golf Course in Edmond**. ASHRAE has consolidated down to one golf tournament a year, so you will not want to miss this one! It will once again be a lot of fun for everyone involved. So come and enjoy the fellowship and of course the great golf. The entry fee is **\$100 per person**. This fee will cover prizes, green fees, cart, range balls, lunch before the round and the Bar-B-Que dinner after the round.

Hole Sponsorship Begins at Only \$300 per Company

12:00 Lunch and Range Balls
 1:00 Shotgun Start
 After Round: Awards

With Hole Sponsor and 4 entries: \$700 for All!

Please sign me up for the golf tournament. Here is my information:

Player 1 Name: _____ Player 3 Name: _____

Player 2 Name: _____ Player 4 Name: _____

Company Hole Sponsor Name: _____ @ \$300

Check enclosed: Make checks payable to CENTRAL OKLAHOMA CHAPTER ASHRAE

Contact/Billing Information:

Name: _____
 Address: _____
 City, State, Zip: _____
 Email Address: _____

Company: _____
 Phone: _____
 PO #: _____

We now accept credit cards!

Please send this completed form to:
 ASHRAE Golf Tourney
 C/O Trane, INC. Attn: Bryan Garcia
 305 Hudiburg Circle
 Oklahoma City, OK 73108 or email: bdgarcia@trane.com

If you have any questions,
 please call or email:
 Bryan Garcia 717-7614
 email: bdgarcia@trane.com

Chapter Technology Transfer (CTT)

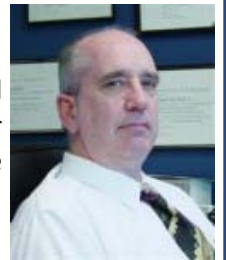

October's Program: Dan Int-Hout, ASHRAE Distinguished Lecturer

By: Michael Wilson

We are not far away from our first meeting of the year and we have been working hard. We have most of this year's programs filled and I'm pretty confident there is something for everyone. I really appreciate the feedback I got in the survey we sent out several months back and if you have any other suggestions please feel free to let me know. Also, you never know when we might need an emergency speaker to step in. If you have any ideas for a backup speaker please send me an email from my contact information

below.

Our first meeting this year will start off big with Distinguished Lecturer, Dan-Int-Hout. His topic will be **"You Can't Afford Discomfort"** and this will be on October 7 so mark your calendars. Other topics will include indoor air quality, acoustics, and another Spouse's Night. Once we finalize speakers for the year we will send out "Save the Date" cards again for your use. We hope you can make most of the meetings and we will try our best to keep you informed!

Finally, a chapter goal this year is to submit for a Technical Award. The ASHRAE Technology Awards recognize outstanding achievements by members who have successfully applied innovative building design in the areas of occupant comfort, indoor air quality, and energy conservation. Their designs incorporate ASHRAE standards for effective energy management and IAQ. Performance is proven through one year's actual, verifiable operating data. If you have a project that you want to be recognized for please let me know soon. For more information on Technology Awards please visit <https://www.ashrae.org/membership--conferences/honors--awards/technology-awards-program>.

If you have any ideas for events, want to get involved, or if you want to sponsor an event please contact me. Michael Wilson can be reached at 405-416-8373 or michael.wilson@guernsey.us.

Want to Sponsor?

There are different levels of sponsorship that you can participate in. The following list shows the levels as well as the benefits you gain from each level:

- Bronze Level \$300 Sign at Tee Box with Company Name
- Silver Level \$600 Putting Contest Sponsor
- Gold Level \$1000 Company Name & Logo on every sign plus 4 golf entry fees
- Platinum: \$2500 Tournament Sponsor plus 4 golf entry fees & Special Recognition

YEA

Stepping into Fall

By: Andy Donehue

We are excited to get going for the 2015-2016 year of YEA. If you are 35 years or younger and a member of ASHRAE then you are also a member of YEA. Congratulations!! I encourage everyone 35 years and younger to get involved in this group. It is a great way to network and meet other people in the industry outside of your office. Even if you are older than 35 you are more than welcome to join us at our events. You will be receiving emails from me for this year's events. We have lots of fun things we have planned such as Happy Hours, Top Golf, Bowling, Technical Tours, and Cookouts. We will also be planning some PE study sessions for October's exam. Look for an email from me in the next few weeks with information about our September event.

If you would like more information about YEA, please contact me or go to www.ashrae.org/YEA.

If you have any ideas for events, want to get involved, or if you want to sponsor an event I can be reached at 405-317-0552 or andy.donehue@trane.com.

Student Activities

Starting the Year Off Right!

By: Madison Schultz

Student Activities (SA) has an exciting year ahead! We have several events planned and are eager to increase student engagement! Our next event is scheduled for September 3. We will be helping OSU engineering students prepare for the fall career fair. Any engineering managers interested in joining us in Stillwater to conduct resume critiques and mock interviews, contact

me!

I am pleased to announce that Brian Sauer has joined the SA Committee as our K-12/STEM Champion. Welcome Brian! We are always looking for more ASHRAEers to join SA as regular committee members or one-time volunteers.

If you want to get involved with SA or sponsor an upcoming event, please contact me at 405-416-8205 or madison.schultz@guernsey.us.

Membership Promotion

How you benefit from ASHRAE Membership

By: Daniel Brazeale

With one year under my belt I'm excited to hit the streets and find new members for ASHRAE's Central Oklahoma Chapter. In order to drum up more interest I challenge each of you to bring a different guest (Non-Member) to each meeting throughout the year.

There is an endless amount of benefits from joining ASHRAE! As you'll see this coming year one of the largest benefits is the ability to network and connect with peers and colleagues in our marketplace. Another benefit, not as well known is access to valuable information. ASHRAE provides discounts to members on literature in the ASHRAE bookstore, develops Standards for our industry, and publishes the ASHRAE Journal every month with technical features. Not to mention they send an updated copy of the ASHRAE Handbook (rotating between Refrigeration, Fundamentals, HVAC Applications, and HVAC Systems and Equipment) each year. Ultimately taking advantage of all the benefits ASHRAE has to offer will help you grow personally and professionally.

As we kick off this New Year it is our Chapter's goal to try and increase membership. One of the avenues we are going to pursue is to attract more individuals from contractor's offices. If you know of anyone that would benefit from ASHRAE please send me their contact information.

Another aspect to Membership is keeping our roster updated. Please let me know if someone you know has moved out of our chapter, left the industry, or has passed away. Additionally, if you need help registering for membership, renewing your membership or simply want to chat feel free to email or call.

Daniel Brazeale can be reached at 405-464-3677 or dbrazeale@eei-ok.com

Research Promotion

Contributions

By: Chris Dolan

This year we will be adding several events to help bring the chapter together while raising money at the same time. There will be a Sporting Clays event in the spring along with another social event in the fall. The goal is to have 3 total events to help raise money for Research Promotion.

Chris can be reached at 405-525-7722 or cdolan@eei-ok.com

Refrigeration

Region 8 CRC Award

By: Jason Keyes

Hello, and welcome to a new ASHRAE year! Same as last year, I will again be the Chairperson for the Central OK Chapter Refrigeration Committee. 2014-2015 was good to us and resulted in our receiving the "Best Refrigeration" award for Region 8 at the Ft. Worth CRC. This is an accomplishment to be proud of and all those who helped make it happen deserve a big Thank You!

So the bar is set high for 2015-2016 and I need your continued support to get over it. We are working on two different ideas for refrigeration tours this year and I will be asking you all for input as the dates get closer. Also, please think about refrigeration projects you may have completed over the last year and consider entering them for the Garland Refrigeration Award. I will tell you more about what is required to enter in a later article. In the meantime, I hope to see you all at the golf tournament and welcome your ideas on how to make this another successful year.

Jason Keyes can be reached at 405-948-1794 or jason.keyes@abscompanies.com

Honor & Awards

Recognized Service

By: Tino Mendez

We are starting a new ASHRAE year soon and we need to recognize the individuals that have served our Chapter in the past. Service need not be moving through the chairs and providing the leadership to take care of business such as providing educational and social opportunities for our members to advance in our chosen field. There are individuals that serve in Boards and Committees outside of ASHRAE that we want to recognize as providing a service to the community and in so doing advance the arts and sciences of interest to all of us.

If you are, or know someone that is, involved in any activity that fits the description, let me know.

Tino Mendez can be reached at 405-590-4479 or tinomendez@cox.net

Historian Message

Not Your Average Joe!

By: Dusty Stoabs

The Drought is Over! On Saturday, April 25, 2015, in Fort Worth, Texas, in front of ASHRAE members who traveled in from Texas, Oklahoma, Arkansas, Louisiana, and even Mexico, Mr. Joe Sanders, President of the Central Oklahoma Chapter, was presented with the prestigious Golden Gavel; an annual award given to the best overall Chapter in the Region based on an exhaustive set of criteria including membership, donations, programs, activities, communications, and more. An award that has eluded the Central Oklahoma Chapter for the last 22 years, going back to B.H.Prasad in 1993 (*prior to 1993, the Central Oklahoma Chapter won this award, on average, every 2 years with the longest stretch without winning of only 6 years*).

The Golden Gavel judging committee is taught not only to look at categorical performance taking into account Chapter size, but to look for improvement over previous years. The award committee in Fort Worth must have certainly recognized that the Central Oklahoma Chapter experienced a tremendous year from every perspective. There were statistical year-over-year improvements in meeting attendance, research donations, regular membership, and student membership.

The Chapter was treated to an excellent lineup of programs, which was evidenced by a 96/100 average member feedback score. A number of things that used to be regular occurrences were brought back. Spouse's Night returned and drew a huge crowd with over 80 in attendance. The Chapter Roster was distributed in hard copy once again and brought with it \$3,800 in advertising revenue. Early planning allowed "Save the date" cards to be mailed out at the start of the year so members could get the meeting dates on their calendars. New members were inducted into the Chapter Hall of Fame; a practice that had gone dormant for 15 years.

There were also a number of "firsts" for the Chapter. A Sustainability Committee and a Social Media Committee were both established and became active right away. The first "Day on the Hill" was organized giving members an opportunity to lobby Representatives at the State Capital on a wide range of issues relating to HVAC&R. A cloud-based document storage location was setup as a permanent Chapter digital archive. Chapter PE Study Sessions were organized which contributed to a 100% pass rate for those who attended.

With this award being so elusive for such a long time, I asked Joe if I could sit down with him and ask some questions to document how he pulled it off. After all, 22 years is a long time. In 1993, I was attending ASHRAE as a Student Member, and Joe, well, he was still in pubertal stages of development.

ASHRAE COK 2014-2015 President Joe Sanders receiving the Golden Gavel Award - CRC Ft. Worth

Q: *For the members who don't know your background, where are you from and how did you get where you are today?*

Joe: I grew up in Tulsa and went to Broken Arrow High School. I originally started college at Lindenwood University in St. Louis but transferred to OSU my sophomore year and graduated in the spring of 2002. I chose engineering because my father was an engineer. I was very interested in his job, but also in just learning how things worked and went together. I was hired by Trane directly out of college and went through their Graduate Training Program. The market for engineers wasn't great at the time following 9/11, but the position at Trane really intrigued me. I enjoyed my time at Trane, but in 2005 I was presented an opportunity at R.B. Akins that I couldn't turn down, and it has worked out extremely well. I have been there for 10 years now and do not anticipate leaving any time soon. I got started in ASHRAE my first day in the office at Trane. Basically, Bryan Garcia told me I was now the newsletter editor for Tim Jones' year. Since then I have been on numerous committees and a member of the Board of Governors several times.

Q: *When you were working your way through the chairs, did you start to see certain areas that you wanted to focus on once you became Chapter President?*

Joe: I knew I wanted to start early and get all my committees set. That began around January the year before (*the ASHRAE year runs July to June*). My focus was on the big committees: CTTC, RP, and Membership. Not only getting the chair positions in place, but also recruiting committee members. I knew that committee chairs couldn't do it all on their own and they needed support. I also wanted to be sure that all committee members were given the PAOE criteria right from the start. I remember my first year on CTTC; it was about half-way through the year before someone gave me the PAOE requirements. I thought: Why in the world didn't I get this earlier? So, as President, I wanted to make sure everyone was aware of the criteria and could stay on top of it.

Q: *So, your past experience on committees was invaluable to your success as Chapter President. What all committees have you served on?*

Joe: I've chaired Newsletter, CTTC, Refrigeration, and Special Events; and I've served on Board of Governors many times. I've served as committee member on others. Thirteen years total.

Q: *With all that experience, did you start out the year with the goal of winning the Golden Gavel? Most Chapter Presidents are just aiming for PAR and making sure we don't lose the Premier Award.*

Joe: My personality is that if there is something to win, I want to win it! But really, my goal was that if I couldn't win the Golden Gavel, I wanted to work as hard as I could to put the Chapter in a position where we could really compete for it during John's (*Semtner*) year. However, John was actually working as hard as he could to so that we could win during my year. That was one of the more significant things; normally a person going through the chairs tends to sit back and just observe during their year as President-Elect. John didn't do that. I probably had the most helpful President-Elect in history.

Q: *Did everything go as planned or where there changes or course corrections needed along the way?*

Joe: I tried to get it setup so that all I had to do was provide oversight to committee chairs and allow them to do their work; and for 99% of the time, that's exactly how it went. We did, however, have one committee that started getting behind, but we rallied the troops and others stepped in. Members who weren't even really involved came in to help. If anything surprised me, it was the level of buy-in I got. Jeff Forman and Chris Dolan were two that really stepped in. I don't want to start naming people because I'm sure I'll forget someone. There were many who came in to help when needed. That committee ended up exceeding their goal.

Q: *Where there any other key factors you can recall that made your year a success?*

Joe: I can think of a number of things. I met with John Harrod and Tino Mendez several times throughout the year. They have a lot of ASHRAE experience at the Regional level. Their advice and confirmation that we were on the right track was very valuable. I had stressed to my committee chairs to stay in constant contact with their RVC, and they did a real good job of doing that. I got started on the CRC report early in the year. Tino told me that the Chapters that impress the judging committee are the ones that do things no other chapters are doing. I tried to highlight those kinds of things in the report, and I had several people review the report before it was final. I can't remember who's idea it was to have a Spouses Night at District 21 and double that as a Refrigeration tour, but that hit a homerun. Overall, it wasn't really me, it was everyone involved, especially my committee chairs, that allowed us to win this award. It was a team effort.

Q: *Do you have any specific future plans for serving in ASHRAE, such as at the Regional or Society levels?*

Joe: I've already been elected to be the Regional Vice-Chair of CTTC. That's a three year commitment. With John Harrod rolling off of Director and Regional Chair, and very few Central Oklahoma people moving in to the regional level, we weren't going to be represented very well. Our Chapter is too strong and too big to not always have someone in Regional leadership.

Q: *Would you consider being our Chapter President again?*

I really enjoyed my time as Chapter President. I liked working with everyone in our industry and really benefited from the character building and leadership skills. It was a rewarding experience. If we were faced with another situation where someone needed to step in and fill the position at the last minute, like Harry Rountree (2006) and David Royal (2013) did, then I would be glad to do it. However, I really want to see our YEA and committee members go through the chairs. It will be an experience that will definitely help them throughout their career.

For more information on the 2014-2015 year, download Joe's CRC Summary Report under the History tab at ashraecok.org

Sustainability / Community Service

Continue Building Success

By: Brian Sauer

The Central Oklahoma ASHRAE Chapter will be completing our second Rebuilding Together project on December 12th, 2015. Our first project earlier this spring was a huge success. Approximately 15 members of our Chapter helped paint the interior of a home and prepare an area of the house for installation of an ADA shower by Trade Mechanical. Here is a quote from Brett Crecelius at Rebuilding Together:

"It is great to hear that you want to volunteer again! You all are a great group and we would love to have you back. Also, The Kersey's love the paint job and the shower that was put in. They are extremely happy and ecstatic about how much you all have helped them out. And in even better news, Mr. Kersey has regained feeling in his legs which is an amazing turn around for someone in his condition. We thank you all for all the work you have done and we look forward to serving the OKC community with you all again in December! Thank you!"

Please email Brian Sauer at bsauer@fsb-ae.com if you would like to volunteer for this event or donate equipment, materials, or services.

Grassroots Government Activities

Continue Building Success

By: Byron Hughes

The Grassroots Government Activities once again is off to a great start in 2015. With the success of last years "Day on the Hill" just a few months behind us, our plans this year may seem very similar. However, several doors have been opened due to the support we had from our members and we plan on reaping the benefits of our labor.

On November 4th, 2015 we will have Mr. Billy Pope (Chief Executive Officer with the Oklahoma Uniform Building Code Commission) as our guest speaker for our monthly ASHRAE meeting and we ask that all members make their best effort to attend. As always the invitation to help organize and or participate in any Grassroots Activities is always open.

Please feel free to contact me anytime at 405-947-6502 or bhughes@rbakins.com
